

ACC Review - Outline

Why we developed this service?

When you receive mail from ACC do you:

- Wonder whether the amounts being charged are correct?
- Wonder whether there may be cheaper or more effective options for cover?
- Find it difficult to contact ACC to make changes if needed?
- Generally feel confused and wish things could be made simpler?

If you answered “yes” to any of these questions, then an ACC review is a good solution we can offer you.

We appreciate that your time is valuable and that the intricacies of the ACC regime are often too difficult and time consuming for many business owners to administer effectively. Consequently, we have a proficient team here who can quickly manage your ACC matters to ensure compliance and that you are covered when in need. Our service is made up of two parts; an initial ACC review and then on-going administration of your ACC requirements.

Who should have a review?

You should have a review if you are unsure whether you have the most appropriate ACC cover and are paying the correct amount.

What is involved?

The process is very straightforward. All you need to do is complete a Short Client Questionnaire. This allows us to determine your ACC client and product grouping. We commit to carrying out your ACC review within 5 working days of receiving your completed documentation. You will then send a summary of your review outlining any resulting recommendations and an action list (if applicable). We will then discuss these recommendations with you and act upon your decisions.

Following the review we will contact you regularly to ensure your ACC cover remains appropriate to your circumstances.

When should I have an ACC Review?

As soon as possible. Imagine the peace of mind knowing that should an unforeseen accident occur you will be covered and reimbursed according to your specified level.
